Karl:

The *Carbondale News* has been very supportive of these D&H DVDs. Page one story, two weeks in a row. See four attached files. [819-820; 833-834]

Another nice thing has happened. The Pennsylvania Cable Network (PCN) has contacted me and would like to do a one-hour interview with me on the D&H books for their weekly broadcast titled *PA Books*.

I'm going to their studios in Harrisburg on January 30 for the interview. PCN is carried by 145 cable systems and is received in 3 million cable homes.

I am very pleased, delighted, and thrilled by their interest.

Long live the D&H.

Robert

I cannot wait to read them. I've been waiting for a long while for such a concise D&H history. I'm extremely happy that so much notice has been taken. Well deserved, I'm SURE.
